

Press release

«Be creative with SWISSCDF»

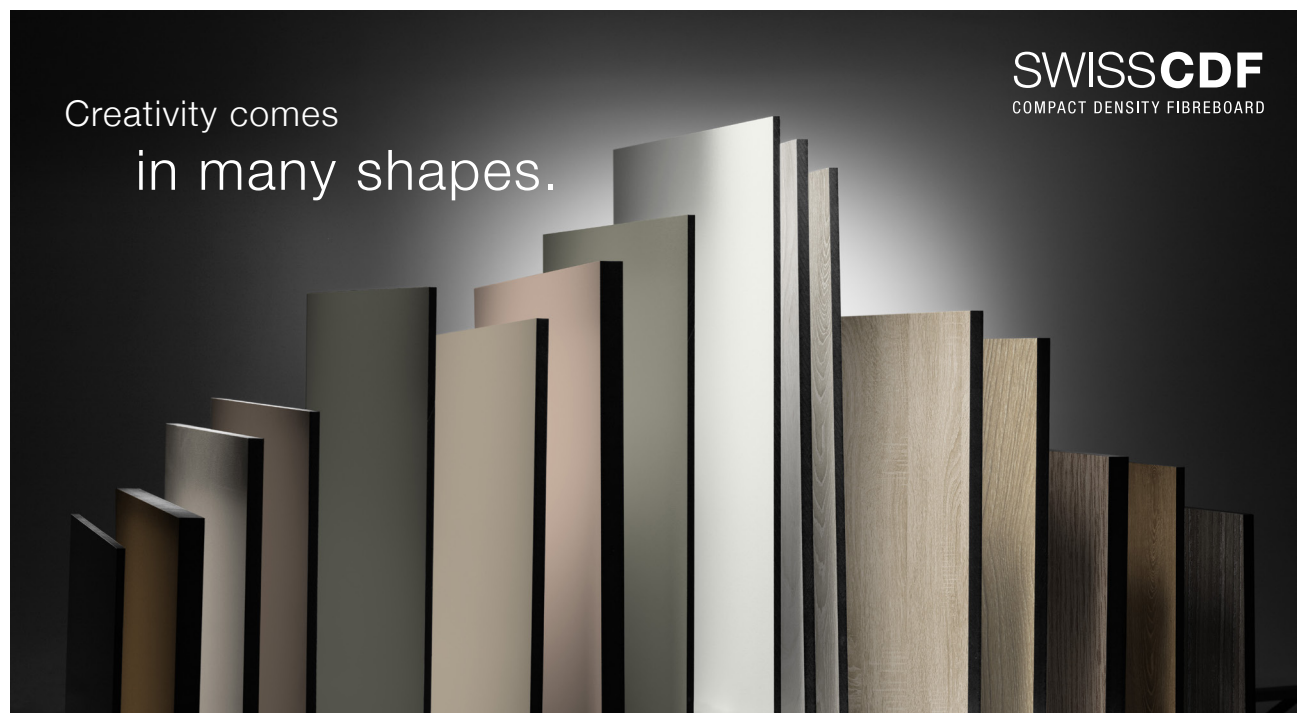

Visit our website at swisscdf.com and immerse yourself in the world of black fibreboard which was developed to inspire designers with its high density and aesthetic appeal.

Five new fields of use have been created to present the unique diversity of the highly compressed panels:

- Architecture/Exhibition
- Design/Art/Furniture
- Educational/Office/Hospital/Public Area
- Restaurant/Store/Hotel
- WC/Cubicle/Partition/Locker

Be creative and make SWISSCDF the centre of attention!

Order the new product brochure today at www.swisscdf.com/service, contact your sales consultant for a product presentation or visit the permanent exhibition at stilhaus, Rössliweg 48, Rothrist (CH).
